

Job Title	iOS Developer
Department/Group	R&D
Position Type	Full-Time
Job Classification	Exempt

We are looking for an IOS Developer to help build one of the largest and fastest growing-on-demand home services companies. The company has a fast-moving, highly collaborative team that works in concert with Product Design and Quality Assurance. We value creativity, critical reasoning, code quality, and teamwork. You will not just be coding, but also actively helping to invent and design features for the system that make our company go. As an IOS Developer you will be expected to help guide our infrastructure as we grow and be able to mentor junior devs as necessary. You will be working with existing code bases and migrating deprecated applications into new paradigms.

What we look for:

- Work in a fast-paced, agile team environment
- Be able to communicate clearly and effectively
- Production experience with modern deployment strategies
- Be an engineer leader and promote any new technologies as they fit
- Become fluent with the full stack of the company's software
- Care about coding standards and develop efficient, elegant, clean code with no unnecessary complication

Qualifications and Educational Requirements:

- Degree in a computing related discipline preferred
- 3+ years experience working IOS
- Experience developing, publishing and maintaining native IOS apps
- Experience developing IOS applications using iTunesConnect
- Unit testing experience and ability to provide good code coverage
- Experience developing native IOS apps
- Experience with Objective/C and Swift
- Experience with RESTful web services
- Amazon Cloud services (SQS, S3, etc)

Position Type/Expected Hours of Works:

- This is a full time. Position> Monday through Friday.

Travel

- No travel is expected for this position.
